

**MAGNETIQ
BANK**

Explore Banking as a Service ■ with ● Magnetiq Bank

Our platform delivers comprehensive technological and financial solutions, enabling financial service providers to expand their business efficiently.

New feature:

Store funds safely in a segregated account at Latvijas Banka.

Key benefits: reduced risk and enhanced credibility.

Demonstrating that your funds are held at a central bank strengthens your balance sheet, thereby increasing transparency and trustworthiness.

BaaS

Safeguarding Accounts:

We provide a primary account for client funds and a secondary account for the company's administrative expenses.

Overnight Deposits:

Secure overnight storage of funds at [Latvijas Banka](#) is a very effective tool to manage daily liquidity. The rates for overnight deposits are set daily and fluctuate based on each day's demand and supply conditions.

Acquiring Services:

For VISA, MasterCard, Apple Pay and Google Pay, available exclusively to EU companies.

Payment Services:

SEPA, SEPA INSTANT, TARGET via API.

Brokerage Services:

Accessibility of securities purchases for payment institutions

Currency Exchange Operations (FX).

It would be a pleasure to schedule a call to explore how our services can support your business and discuss future partnership opportunities.

Best regards,
